Proposed Data Collections Submitted for
Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-7570 or send comments to Ron Otten, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d)

ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

HIV/AIDS Awareness Day Program - Extension - National Center for HIV/AIDS, Viral Hepatitis, STD, and Tuberculosis Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC is requesting Office of Management and Budget (OMB) approval of a 3-year extension to administer surveys to respondents who plan HIV/AIDS day awareness activities during the next 3 years. The name and dates for the annual HIV/AIDS awareness day campaigns are: National Black HIV Awareness Day - February 7th; National Native HIV/AIDS Awareness Day - March 20th; National Asian and Pacific Islander HIV/AIDS Awareness Day - May 19th; and National Latino AIDS Awareness Day - October 15th. The purpose of the surveys is to assess the number and types of HIV/AIDS prevention activities planned and implemented in observance of each of the four noted HIV/AIDS awareness day campaigns. This extension is required to continue the work of HIV/AIDS in among the African American, Native American, Latino, and Asian Pacific Islander populations. Each of the awareness

days have reached a landmark year. This has been done through national outreach and mobilization efforts towards their targeted populations as well as awareness to the general population about HIV/AIDS issues that impact their communities. The importance of each day has been demonstrated in reaching beyond traditional audience. This has been done by collaborating with agencies and organizations who serve the public health in areas affected by HIV/AIDS. A more proactive role has been shared between each of the planning committees and the communities they serve. Testing and linkage to care has been a staple for each of the days. Also, each of the groups has fully used online resources to provide information and network with individuals and groups to help with their perspective cause(s).

After the date that each campaign occurs, the event planners will be asked to respond to a computer-based survey to collect qualitative data. They will go to the designated websites to review information about the campaigns and go to the section that allows them to enter information about their particular event. For example, the event planners will be asked to note the kind of events that they planned. The survey results are necessary to understand how and where HIV/AIDS awareness activities are planned and implemented.

These survey results will provide important information that will be used to develop HIV/AIDS prevention activities. The

computer-based surveys take up to one hour. The surveys are one-time only and will not require a follow-up. There is no cost to the respondents other than their time.

Estimated Annualized Burden Hours

Respondents	Form Name	Number of Respondents	Number of Responses per Respondent	Average Burden per Response (In hours)	Total Burden (In hours)
African-American HIV/AIDS awareness day activity planners	National Black HIV/AIDS Awareness Day Evaluation Report	200	1	1	200
Asian and Pacific Islander HIV/AIDS awareness day activity planners	National Asian & Pacific Islander HIV/AIDS Awareness Day Evaluation Report	15	1	1	15
Latino HIV/AIDS awareness day activity planners	National Latino AIDS Awareness Day Evaluation Report	125	1	1	125
Native HIV/AIDS awareness day activity planners	National Native HIV/AIDS Awareness Day Evaluation Report	35	1	1	35
Total					375
